Sir,

I have the honour to submit, herewith a copy of Report No 169 dated 11th February 1908 from the Assistant Commissioner, Mysore Division, together with that of its enclosure, regarding the Cattle Show held at Chunchenakatte in the Yedatore Taluk during January 1908.

I have the honour to be,

Sir,

Your most obedient Servant.

Deputy Commissioner
Mysore District

Report No 169 dated 11th February 1908
from the Assistant Commissioner, Mupore
Sub-Division, to the Deputy Commissioner,
Mupore District. —

Submitted to the Deputy Commissioner
of the Mupore District for kind perusal.-

2. The Deputy Commissioner was present
and prizes were awarded in his presence; so there
is very little which I could add to what the
Amildar has stated on the subject

3 The Jatra was a very successful one and there
was no epidemic this season notwithstanding
the defective Sanitary arrangements for
which provision has not been made previously

4 Considering the enormous number of men
and Cattle that are brought to the place: the
first thing to be considered is Whether the
Camping ground is quite suited for all purposes
The ground is spacious enough but it has to
be cleared and roads laid for different
kinds of cattle, so that purchasers can freely
go

go and make Selections. I
blocks be set apart for bulls,
heifers, Calves ten at Convenient distance from
each other. Some System was observed this
year and if that System is improved upon,
the block System Could be well arranged.

5. It Came to notice that Several heads of
Cattle were taken away outside the Jatra
limits for Sale and to evade past the
entrance fee Again Several people did
not bring their picked Cattle for exhibition
on account of the Second fee which they
were expected to pay for admittance to
the enclosure near the Travellers Bungalow.
That fee has Considerably to be reduced, so
that owners might freely Come up to exhibit
their Cattle. The Aiuldars Suggestion might
be adopted.

6. This years experience has shown the great
need there was for lighting and for Sani-
tation. The lighting Charges may be
approximately put down at Rs 100/- and
Conservancy Charges at Rs 100/- These two
items are very necessary and money
has to be set apart from the Jatra Collections

7. The preliminary arrangements made by the Amildar Sri. Srinivasa Rao were good and his wise forethought Contributed to the large income derived during the year under report.

8. If the block System, lighting, Conservancy and reduction of Entrance fee at the exhibition as suggested above are brought into force from next year, I am confident that the show will become grander than heretofore and the income to Government will also be appreciable.—

16 Now it only remains to be respectfully suggested that some further improvements may be effected in connection with the Jatra and the Cattle Show both in the matter of the Sanitation of the place and in the matter of the more effective supervision of the collections of fees on cattle. I beg to note hereunder:—

(a) There is at present no provision for the employment of Sweepers &c. 2 Sweepers from each of the Municipalities marginally noted and Union are temporarily made to work at Chemchenakatte for about 10 days during the Jatra, but this number is quite inadequate. Satisfactory Conservancy arrangements cannot be made with the small establishment, especially at a time when thousands of people congregate. Besides, the temporary transfer of Sweepers from other Municipalities is prejudicial to the Conservancy work in the towns from which they are drawn off. I am therefore of the humble opinion that a sum of at least Rs 100/- should be set apart for this purpose from the temple

temple or the District
a legitimate Charge on the temple
Considering that even the realisations
from manure (which were Rs 505 this
year against Rs 55 in the previous year) are
credited to those funds.

(b) 5 lamp posts, one at each Oakkad
should be fixed and the light kept
burning the whole night for about
10 days from the date on which the
cattle begin to pour in. This would
enable the ticket issuers to see that
no cattle brought for the jatra are
taken away in the dark escaping
payment

(c) The ground on which the cattle
are picketted, which is commonly
known as Kodoongs, should be divided
into blocks by opening out roads
for 50 yards square and fixing stones
duly numbered, at each end of the
road. By this arrangement the supervision
of the collections can be done more
effectively. The cattle are at present
